linkedin.com/in/raahim-alavi-2ba730390

PROFILE

Flutter developer and UI/UX designer based in Pakistan, building cross-platform products where engineering and emotion meet. Raahim focuses on pixel-perfect interfaces, reliable state architecture, native-feeling performance, and product experiences that feel clear, thoughtful, and human.

EXPERIENCE

	Information Technology Specialist techcozum (Pvt) Ltd - Part-time Karachi - On-site	Mobile Application Development and Information Technology Infrastructure
MAR 2023 - JUN 2024 1 YR 4 MOS		

SELECTED WORK

01	Huely DAILY SOCIAL COLOR CHALLENGE	Match the day's color with a photo, share it with friends, and compete in a playful daily challenge.
02	OS Chat Application SYSTEMS / REAL-TIME NETWORKING	A multi-user chat system built in C with TCP/IP sockets, POSIX threads, rooms, private messaging, and thread-safe queues.
03	NotiveApp PRODUCTIVITY / NOTE TAKING	A cross-platform notes application focused on fast writing and reliable Riverpod state management.
04	Weatherly LIVE METEOROLOGY DASHBOARD	Real-time weather tracking with fluid interface transitions, API integration, location services, and forecasts.

SKILLS & EXPERTISE

ENGINEERING	Flutter, Dart, Riverpod, REST APIs, responsive layouts, cross-platform delivery
DESIGN	UI/UX, rapid prototyping, interaction design, motion, micro-interactions
PRODUCT	Product thinking, concept development, prioritisation, usability, iterative refinement
FOCUS	Pixel-perfect interfaces, robust state management, native-feeling performance
LANGUAGES	English - Fluent; Urdu - Native; Sindhi - Conversational

WORKING STYLE

ENGINEERING MEETS EMOTION	Raahim treats design and development as one continuous loop: understand the interaction, prototype the feeling, then engineer the system to deliver it reliably.
